

**US Army Corps  
of Engineers®**

## Port Wing Harbor, WI

### Harbor Features

- Located on the south shore of Lake Superior, about 34 miles east of Duluth, MN.
- Authorization: River & Harbor Acts of 12 Jun 1902, 30 Jun 1948.
- Shallow Draft recreational harbor.
- Project depth ranges between 8 - 15 feet.
- Almost 2,500 feet of maintained Federal channel.
- Almost 2,000 feet of piers.
- Dredged material is placed on the beach as beach nourishment.
- Major stakeholders include Port Wing Marina, Everett Fisheries, and various charter fishermen.

### Project Needs

- Requires maintenance dredging on a three to five year cycle of approximately 20,000 to 30,000 cubic yards.
- Navigation structures are primarily maintained by Government floating plant.

### Consequences of Not Maintaining the Project

- Loss of jobs locally.
- Loss of recreational and charter fishing in the area.

### Transportation Importance

- This project serves as an important Harbor of Refuge as well as charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
